

The [Department of Geospatial & Space Technology](#) held the annual Geospatial Engineering Camp, Unit FGE400, from 27/05/2016 to 09/06/2016 at the [University of Nairobi](#) Kibwezi Field Station in kibwezi.

FGE400 is a mandatory unit that takes students through various project-type Geospatial Engineering processes as would be expected in real life, under the guidance of both Lecturers and Technical Staff. It is a unit that aims at giving students real life experiences and geared towards the molding of work ethic and the professionalism of a Geospatial Engineer.
