

The Departments of [Geospatial & Space Technology](#), [Land Resource Management & Agricultural Technology](#) and Geospatial Engineering Students Association (GESA), commemorated the 2017 World GIS Day on 15/11/2017 at the College of Agriculture & Veterinary Services, CAVS, at Upper Kabete Campus.

GIS Day is a world event that brings together the Academia, Student fraternity, and industry players / users to meet, interact, learn and showcase GIS technologies and applications that are contributing to the sustainable development of our society.

It is an annual event that has been held at the [University of Nairobi, Geospatial & Space Technology](#) department for the last 10 years.

This year's event is for the first time being co-hosted by [Geospatial & Space Technology](#) Department, and [Land Resource Management & Agricultural Technology](#) with students from both G&ST and LARMAT running the show, by inviting key note presenters to give presentations on real life applications of GIS technologies in various sectors such as agriculture, geology, urban planning, environmental monitoring, etc.
