

## **GESA MENTORSHIP PROGRAMME AT KISAYANI SECONDARY SCHOOL**

The [University of Nairobi](#), [department of Geospatial and space technology](#) under the stewardship of the Geospatial and Engineering Student Association (GESA), carried a mentorship program at Kisayani Secondary school in Kibwezi. The purpose of the visit was to allow interaction between BSC. Geospatial Engineering students and Kisayani Secondary School with a view to encouraging interest for Engineering programs, and specifically, Geospatial Engineering.

The students later on held a friendly football match where the Kisayani secondary school emerged the best. The school management was very happy and appreciated the visit. The students were accompanied by staffs from the department of Geospatial and Space Technology.
